Water Connection Application

For Water Connection Application to be made through SIIDCUL, SIIDCUL has implemented an online system through which the application can be made online, through a portal with the following features:

- Entrepreneurs can fill out and submit the application form online.
- The user can pay all associated fees online.
- Once submitted, the applications are processed and approved by SIIDCUL in a completed online process and not through a manual or hard copy process;
- The user can track the status of his applications online using the portal
- Once approved, the user can obtain the approval or registration certificate online through the portal

There are no physical touch-points in the application process. This means that entrepreneurs are not required to physically present and submit all documents for verification before the connection is issued.
