Selection of Agency for assisting Government of Uttarakhand as the PMC for leveraging GoI Schemes for Industrial Infrastructure and Cluster Development in the State of Uttarakhand

- A. State Infrastructure Industrial Development Corporation of Uttarakhand Limited (SIIDCUL) is the State Government Enterprise for Industrial development in the State. The enterprise is mandated with developing industrial infrastructure in the State of Uttarakhand.

Government of Uttarakhand has embarked on a holistic 'Make in Uttarakhand' programme to further strengthen manufacturing base, generate employment and increase share of value addition in the state. The initiative, inter-alia, aims to provide state of the art industrial infrastructure to MSMEs. In view of the contribution of MSME sector in employment generation, exports and employment creation, SIIDCUL has embarked upon Cluster Development approach for enhancing competitiveness of this sector. The initiative, aims to facilitate access of MSMEs to better technology, higher value addition, more profitable markets, formal credit, skilled manpower and other need based inputs required to compete in the global markets.

Major part of the initiative is devoted to mobilize cluster stakeholders especially, the MSMEs in organizing themselves to articulate common vision, chalk out a collective action plan and develop functional trust to action the plan. The innovative approach involves engaging with the stakeholders, undertaking trust building activities and undertaking a participative need assessment to address common challenges & opportunities.

In most cases, the MSMEs are well aware of the gaps that need to be addressed along with possible solutions. Key to success of cluster development projects is active participation and ownership of MSMEs. They need to be appropriately motivated, mobilized and organized for successful intervention. Facilitation is also required to help the cluster stakeholders articulate their priorities for soft and hard interventions. It has also been widely seen that with active engagement with clusters, a group of likeminded entrepreneurs and opinion leaders come forward to lead the initiative for their respective clusters.

Various schemes such as Modified Industrial Infrastructure Up-gradation Scheme, Electronic Manufacturing Cluster Scheme, Plastic Parks of Government of India for developing greenfield and brown field clusters are proposed to be leveraged by the Corporation.

Leveraging funds available under these GoI schemes would require major efforts in project conceptualization and development and stakeholder engagement along with coordination for financial closure, approvals from the concerned Ministry and documentation for release of grant funds post approval to the projects. In view of the above, SIIDCUL proposes to engage services of a Project Management Consultant (PMC) with appropriate experience and qualified and experienced team.

A vibrant Micro, Small & Medium Enterprises (MSME) Sector is critical for sustaining economic growth and employment generation due to its labour intensive nature. The 'Make in India – Made in Uttarakhand' goal requires adoption of a comprehensive approach to assist the MSME Sector in becoming globally competitive by producing zero defect products. The MSMEs have been identified for a specific attention to address the basic problems of the access to finance, R&D/Innovation, access to technology, marketing support etc. The appointment of consultant will help the Government in achieving its goal of development of MSMEs in the State.
